The Judge replied with considerable ex-citement: "I will decide that in my own time. This is the first time I have ever

He further went on to say that the matter had given him con-siderable trouble; that he had consulted many eminent lawyers as to what the law was, and some said the writ should issue and others said not; that he would take further time to consider.

Mr. Glasgow, in his colloquy with the Judge, exhibited provoking coolness. A mandamus to compel Judge Mays to issue a writ of election will be applied for

The Marquis of Lorne in Boston A Bomb Reception.

The Marquis of Lorne arrived here a 8:30 o'clock vesterday morning via the Vermont Central railroad. His first inquiry was in regard to the prevailing winds, his query having reference to the expected arrival in the harbor from Bermuda of the British corvette Tenedos, with the Prin-cess Louise on board. His party consists of the Duke de Blacas, Colonel Winston, and three attendants. He would not take a conveyance to the Hotel Brunswick, but accompanied by the English consul and the members of his party, and followed closely by a detective, walked leisurely to the ho-

passing carriage in front of the post-offic soon after 10 o'clock this morning, causing some commotion but no damage. The device was a circular tin shell, two inches in diameter and half an inch thick, with two small prongs for caps projecting from the centre. The explosive used is not known. The report was about as heavy as that made by a military rifle. Sorrowful Story of the End of s Girl's Love and Devotion.

[New York Times.] A young man, whose frame was wasted by disease, lay dead in a house in Devoc street, in the Eastern district of Brooklyn, yesterday. The day before he reposed quietly in the parlor of a neat little house at No. 360 south Fifth street. He was alive, but his life was ebbing away. A po-liceman and three men came to the house

He was the son of Augustus Voorhees, who lives at authorities of the Richmond and North Carolina railroad to change the proposed route of their road so as to touch at Petersburg. A Peculiar Snicide. Dr. Martin, who committed suicide in landelaria recently, says the Tuscarora Nevada) Mining News, did so in a remarkde manner. It is said he, with a number of others, were enjoying themselves in a bibulous" way at Jones's saloon. In the midst of their drunken songs he suddenly grew grave and positively sober. He drew the crowd around him and told them how he had fought against his unquenchable thirst for liquor, but all in vain, said that he was certain that could become somebody if he would brace up, but it could not be; "at the hour of I o'clock I will leave this vain and sinful world. But, boys, as a last favor, allow me to do so by music." The crowd, all of which were his friends, summoned up the Italian players, and, to the music of the harp and the violin, he took a dose of morphine. Everybody regarded it as a boax; thought the stuff he took was salts. After awhile he dropped peacefully asleep in a chair. One by one the crowd left the saloon, until none were left there except the sleeping Martin, and Jones, Not wishing to arouse him from such a seemingly-peaceful sleep, Jones locked up the place and retired for the night. Upon opening the saloon in the morning he was found dead.
